

# ALY ARSHAD

## Front End Developer

+92-341-8193401 • aliarshad.9474@gmail.com • <https://github.com/aliarshad46515> • Lahore, Pakistan

## Summary

**Front-End Developer** with a passion for building clean, interactive web experiences using React and JavaScript. Currently studying Computer Science, I love turning ideas into reality through code and solving problems creatively. I'm excited to bring my energy, fresh perspective, and growing technical skills to a team where I can learn, contribute, and help create great user experiences.

## Skills

Frontend: HTML • CSS • JavaScript • React.js

Backend: Node.js • Express.js • MongoDB • MySQL

Languages: C++ • Java • Python

Frameworks: Bootstrap • Tailwind CSS

## Projects

### Daily Store

2024

Full-Stack E-Commerce Development

- Built responsive online stores with React and Node.js, incorporating RESTful APIs via Express.js.
- Integrated MongoDB for data storage and authentication using JWT and Stripe.
- Implemented features like product search, shopping cart, and admin dashboards.
- Enhanced performance through caching and MongoDB indexing.

### Weather App

Date period

- Developed a responsive weather app using React and OpenWeatherMap API.
- Delivered 5-day forecasts with clean visualizations using chart libraries.
- Optimized loading with localStorage caching and robust error handling.
- Designed a mobile-first UI with dynamic backgrounds based on weather conditions.

### To-do List App

Date period

- Built a React-based Todo List app with dynamic task management (add, delete, mark complete) using React hooks.
- Integrated local storage to save tasks between sessions, improving user experience.
- Designed a responsive UI with CSS for seamless cross-device functionality.
